Keynes and Churchill killed more than three million people –in Bengal-1942-By diverting Rice from Bengal to the unconnected-British and American Soldiers fighting Eewhere-in Europe- the Globe-thus creating a Famine in Bengal-. British policy was explicitly designed to 'reduce the consumption of the poor', as Keynes put it, in order to make resources available for British and American troops, through a 'forced transfer of purchasing power' from ordinary people to the military.

The austerity was imposed most harshly on the people of Bengal, who fell into extreme famine, while food supplies were appropriated and diverted for military use.

In the name of the Allied cause, the policies imposed by Keynes and Churchill killed more than three million people – many times more than the total number of military and civilian casualties suffered during the entire war by Britain and the US combined. The scale of this tragedy is almost impossible to fathom
